

ISCA

International
Systemic Constellations
Association

The International Systemic Constellations Association stands for the worldwide community of people who apply constellation work to the different fields of

family
gender differences
personal growth
social work
education und teaching
society and culture
arts and architecture
information technology
politics
economy
ecology
nature
indigenous

ISCA was founded in 2007 in Cologne, Germany.

Our international community is committed to:

being inclusive;

supporting excellence without
controlling its members;

being multi-cultural and
acting interdisciplinary;

networking, dialogue and diversity;

an infrastructure supportive
of the whole and the individual;

supporting the field;

not for profit.

We have a dream of thriving together
by living our diversity while being one.

We branch out and we learn by sharing
in a vibrant laboratory of humanity.

Central and local

The organisation and administration is guaranteed by the members of the board. In the regions, heads of the regional chapters support locally. Everyone is part of our world team.

ISCA holds a biannual gathering. In 2021 it will take place in St. Miguel de Allende, Mexico. Show up. Participate!

Come and join our multicultural community.

Enrich us with your way of constellating.

Meet colleagues.

Learn from each other. Support. Enjoy.

Be one of us. Welcome!

Paul Stoney
chair

Alexandra Finkelstein
head of all regional chapters
